

ACTION PLAN

Product Vision and Goals

Instructions

This action plan provides you with the opportunity to consider how to apply your understanding of drawing the business and setting objectives and key results. You can use this action plan to guide you as you set a product vision for the future at your organization.

Complete the grid below.

Key Objective

In this section, identify the area for improvement, opportunity to pursue, or problem you'd like to address.

Strategies

Identify the strategies you plan to use to address your key objective.

Steps

What specific steps will you take to put these strategies into action? List each step and identify who else should be included to help with implementation. Note anyone who might need to approve these steps. Be as specific as you can.

Timeline

Identify what you want to accomplish by the end of this month, by the end of the quarter, and by the end of the year.

Measurement/Results

How are you going to measure your results or demonstrate that your efforts have had a positive impact? Outline your measurement strategies here.
